

# EAST CANAL

Buffalo, NY

- East Canal is a small parcel helping to stitch together and enliven the Buffalo Inner Harbor. This urban space is an extension to the larger Canal Side site across Main Street.
- East Canal changes Buffalo's typical open space paradigm by providing an urban oasis for year-round activities.
- Amenities include tranquil water channels, shaded seating areas, period specific and contemporary lighting features, city Christmas tree location, events, and sloped access to the fountain pool.
